Choose your Game Plan - Creating Maps for Successful Watercolor Paintings

by Susan Blackwood

Monday, April 8 through Thursday, April 11, 2024

What if there were easy road maps (*or what we now call a GPS*) to help you discover the best route for creating stellar paintings. Well, I have discovered the GPS for ARTISTS! It is easy and fun and gives you amazing results. This watercolor workshop, through a series of exercises, will explore the simple and exciting way to Plan for successful paintings. I am going to teach you an easy way to create your game plan.... and create **Your Maps for powerful paintings.**

Think about it...Sports depend on game plans to win! Football, basketball and soccer all need a *game plan* to win, they have a “map” to plan their moves. Artists need a game plan, too. Learning to use a *game plan* for each of your paintings will change “so-so” paintings into GREAT Paintings...I call these *game plans*.... **MAPS- Making Artistic PlanS.**

They are personalized road maps / creating an easy GPS for ARTISTS to strengthen each of your paintings.

*When you walk across the room, you create a map,
Try walking through your house with your eyes closed - not so easy*

Try walking through Walmart - you need a plan

Try driving through St. Louis - you need a GPS

ARTISTS, also, NEED A MAP for each painting! Just like with a regular map...IT'S WHERE YOU TURN THE CORNERS THAT COUNTS. This is how we communicate our emotions and tell our story with paint and brush strokes, values, colors, edges, and so much more!

Don't keep wandering in the artistic wilderness... Join me and find your way into beautiful paintings!
