

2nd Annual Members Awards Exhibit
September 1999
St. Peter's Cultural Arts Center
St. Peter's, Missouri

Juror: George "Papa" Tutt

Juror's Statement

"Thank you Saint Louis Watercolor Society for a most challenging and a most rewarding experience. This exhibition is of a high quality which made my job extremely difficult.

I was very impressed by the diverse subjects and the wonderful use of color. If there are passages of mud, it's hard to find in this group of paintings. The fundamental use of good design is apparent in the overview of the exhibition's many works. This is hard to find in many national exhibitions.

My selections were based on the following: skill with the medium, color choice, design of the work, and last, the artist's interpretation of the subject. In my opinion, these add up to a quality work through what is termed 'impact'. Each artist achieved one or more of these qualities in their paintings. The award winners achieved more than one; they achieved impact.

Congratulations to all for a most excellent exhibition. I am very proud to have been selected to judge this excellent show."
